

# Heart Block Poem

- If the **R** is far from the **P**, then you have a **First Degree**.
- If **PR** gets longer and longer before the **QRS** drop, it must be a **Wenckebach**.
- If **PR** stays normal and **QRS** quits, it must be a **Type II Mobitz**.
- If **Ps** and **Qs** beat independently, it must be a **Third Degree**.

**OR**

**First Degree** = Far away P

**Wenckebach** = Longer Before Drop

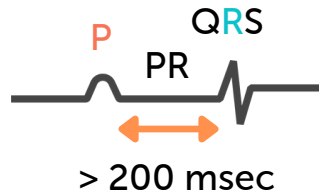

**Mobitz** = QRS Quits

**Third Degree** = Beat Independently

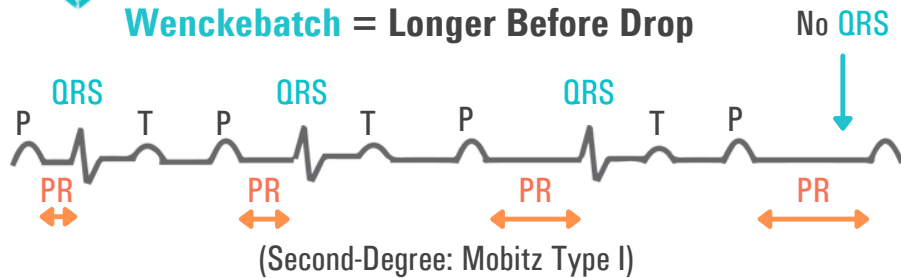

If the **R** is far from the **P**,  
then you have a first degree.

**First Degree = Far Away P**

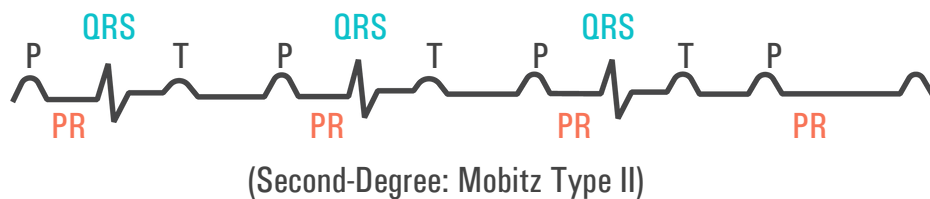

If **PR** gets longer and longer before the **QRS** drop,  
it must be a Wenckebach.

**Wenckebach = Longer Before Drop**

If **PR** stays normal but **QRS** quits,  
it must be a Type II Mobitz.

**Mobitz = QRS Quits**

If **P**s and **Q**s beat independently,  
it must be a third degree.

**Third Degree = Beat Independently**
